## PROJECTS

---

- **THE BUBBLE GAME** - HTML, CSS, JAVASCRIPT **Github**
  - A random hit number will be generated and we have to click the bubble of the same number to get the points.
  - After every correct hit 10 points will be increased.
- **MATCH THE CARDS** - HTML, CSS, JAVASCRIPT **Github**
  - In this game there is a 3 X 4 matrix consisting of 12 boxes.
  - Users have to select 2 boxes at a time.
  - If both the boxes are same user gets one point and the two boxes will vanish.
- **ROCK PAPER SCISSORS** - HTML, CSS, JAVASCRIPT **Github**
  - It's a Computer vs User game.
  - Here user needs to select one option among rock, paper, and scissors and the other will be chosen by the computer.
